

Storybook still lifes

# Collage together

1. At least 3 objects from your story
2. And be composed of at least 5 pics

Start by finding a table or flooring, something that suites the story and literally Grounds your scene

From there collage your important pieces that tell your story.

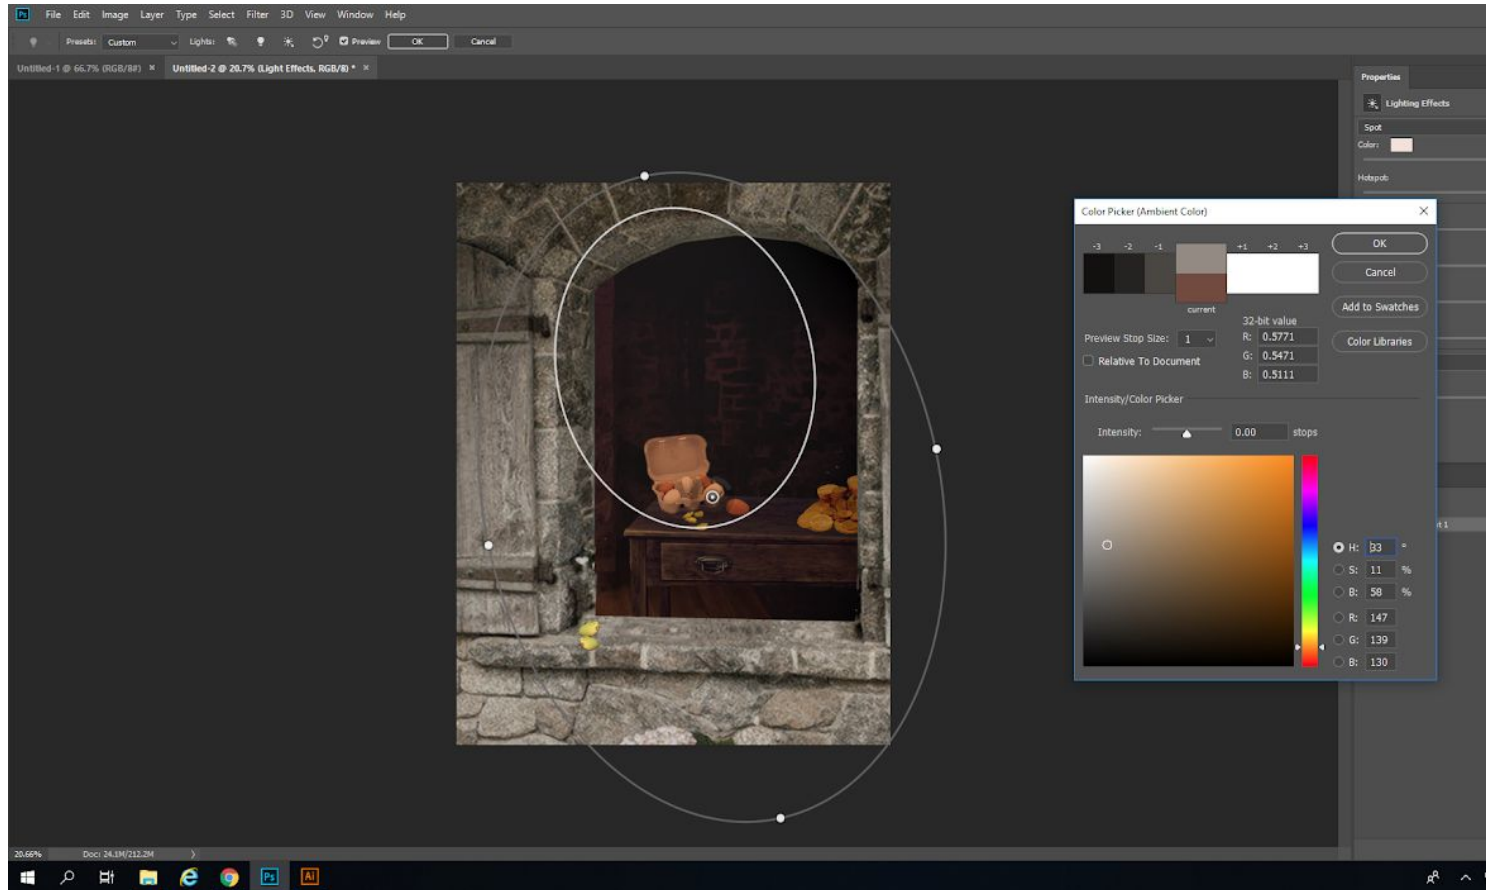

Consider the coloring and aesthetic of the pictures as they all need to feel cohesive!

Change the coloring so there is an overall color unity.

Next change the lighting

effect>render  
Lighting

Make sure to enhance your contrast.

Once everything tells a story and looks cohesive begin your rendering. Is paint or vector.
