

# What is Value?

Value has two very different meanings in art.

“Monetary Value” is that VanGogh’s *Sunflowers* sold for 80 million dollars.

“Value Scale” refers to the lightness or darkness of a color.

# Value

- ⌘ Value is an element of design.
- ⌘ Value is defined as the lights and darks in an art work.
- ⌘ Value can be black, white and ranges of grays.
- ⌘ Value can be a color and the lights (tints) and darks (shades) of that color.
